Subject: Conditional Approval of Amended Notice to Commence Large Mining Operations,
Shaw Environmental, Inc. Lime Peak Quarry, M/049/0047, Utah County, Utah

Dear Mr. Parks:

The Division has completed a review of the amendment to the large mine notice, received July 8, 2010. This amendment dealt with changing the post mining land use of 6.2 acres of the lay-down or work area from grazing and wildlife habitat to industrial use for Eureka City. You have provided documentation for the needed change as well as showing that Eureka City has entered into a long-term lease with the property owner for the industrial use. The Division considers this amendment complete and approves the amendment conditioned on you sending two clean copies of the amendment to insert into your Notice. Once they are stamped 'Approved', one copy will be returned for your records.

While typically an amendment of this nature would also result in a surety reduction, it is the Division's understanding that you will make a request for a surety reduction at a later date.

Thank you for your cooperation and patience in completing this permitting process. If you have any questions regarding this letter, please contact me at (801) 538-5261 or Lynn Kunzler at (801) 538-5310.

Sincerely,

Paul Baker

Minerals Program Manager
